

Active Directory Home Lab - Day 1

1. Static IP Setup

Configured a static IPv4 address on the Windows Server 2022 virtual machine to ensure stable network communication required for Active Directory services.

Configuration Details

- IP Address:
- Subnet Mask:
- Default Gateway:
- Preferred DNS Server:
- Alternate DNS Server:

Notes

Configured the network adapter settings manually through IPv4 properties and verified connectivity using ping commands.

Screenshots

2. Active Directory Domain Services (AD DS) Installation

Installed the Active Directory Domain Services role using Server Manager.

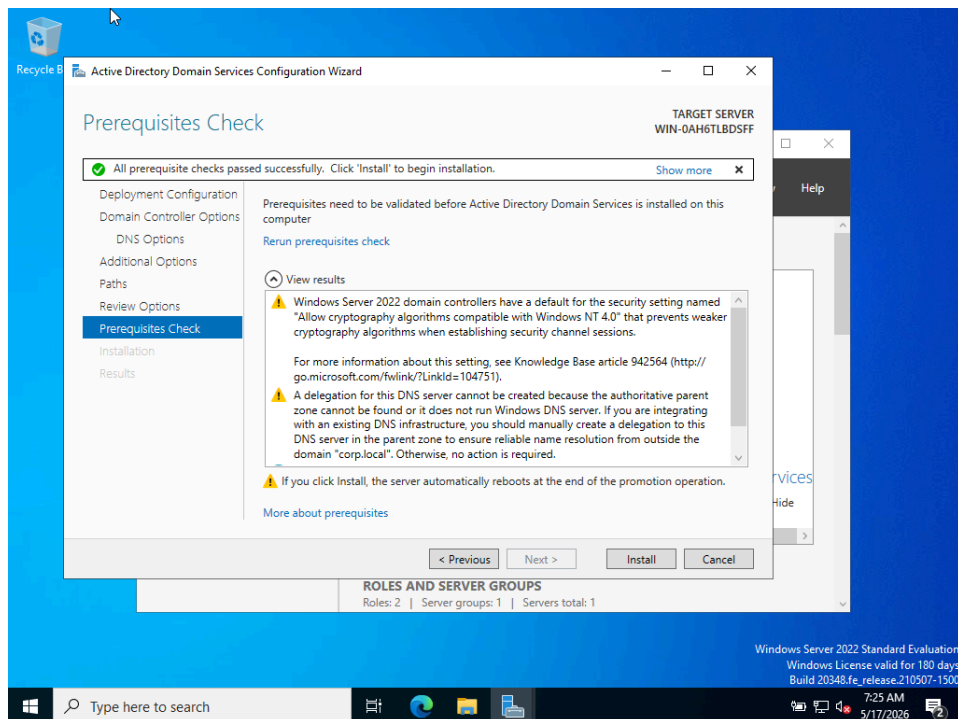

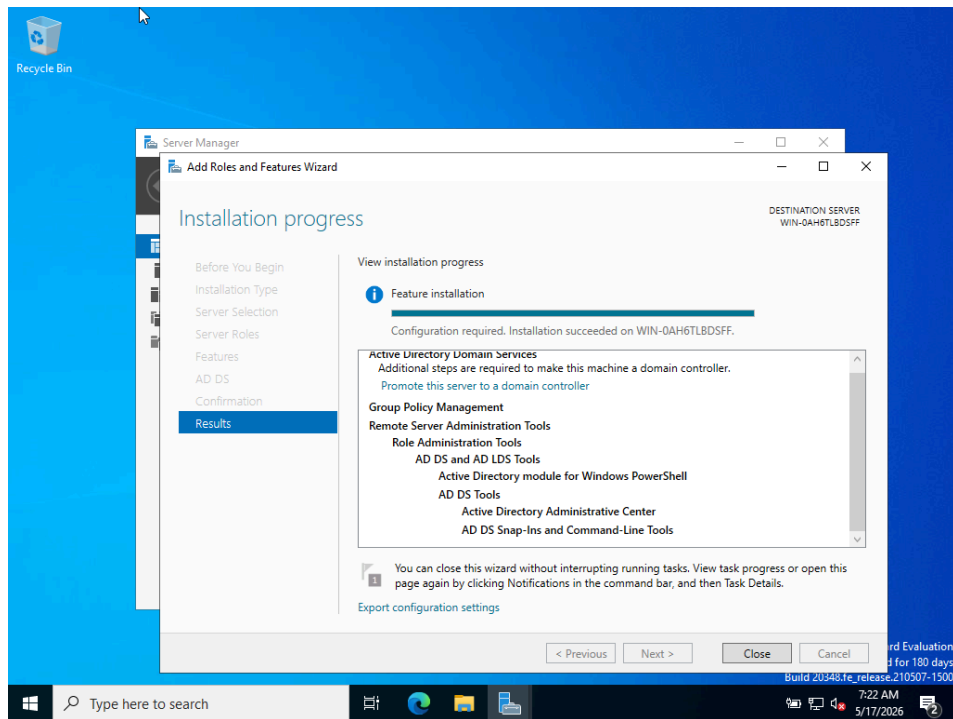

Steps Performed

- Opened Server Manager
- Selected "Add Roles and Features"
- Installed Active Directory Domain Services
- Added required features

Notes

Installation completed successfully without errors.

Screenshots

3. Domain Creation

Promoted the server to a Domain Controller and created a new Active Directory forest.

Domain Information

- Domain Name: corp.local

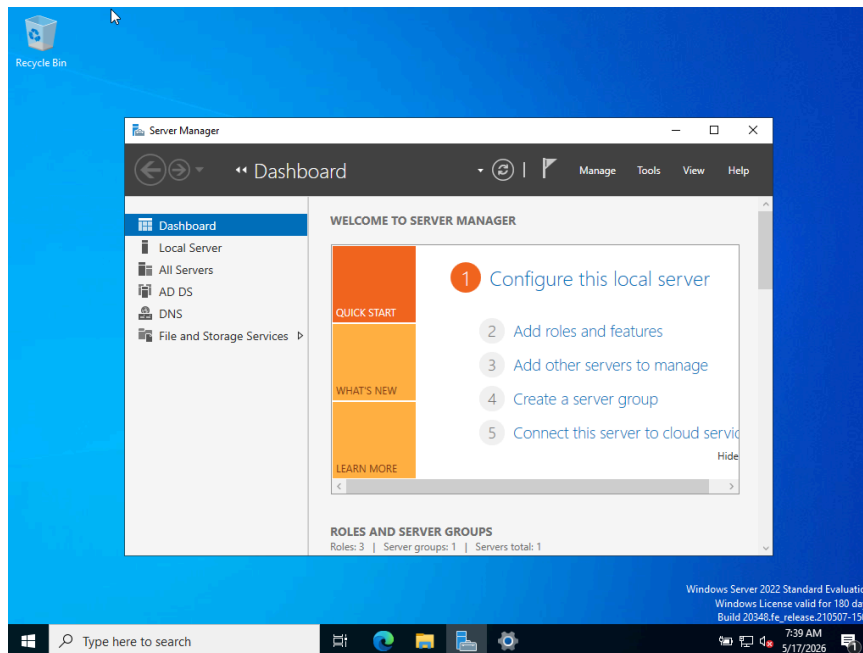

Steps Performed

- Selected “Add a new forest”
- Configured domain controller options
- Set DSRM password
- Restarted the server after installation

Notes

Successfully logged in using the domain administrator account after reboot.

Screenshots

4. Organizational Units (OUs) Creation

Created Organizational Units to simulate a real company structure.

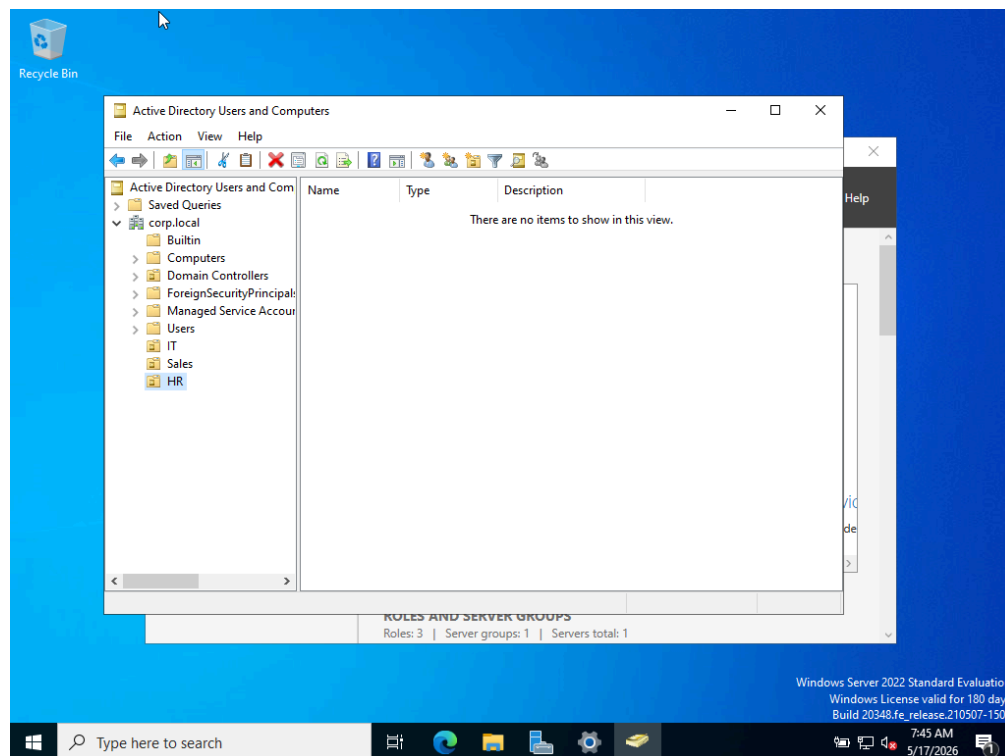

OUs Created

- IT
- Sales
- HR

Notes

The OUs were created using Active Directory Users and Computers.

Screenshots

5. Users and Groups

Created test users and security groups for each department.

Users Created

- Ahmed Hassan
- Sara Khalid
- Omar Farooq
- Lina Mahmoud
- Fatima Noor

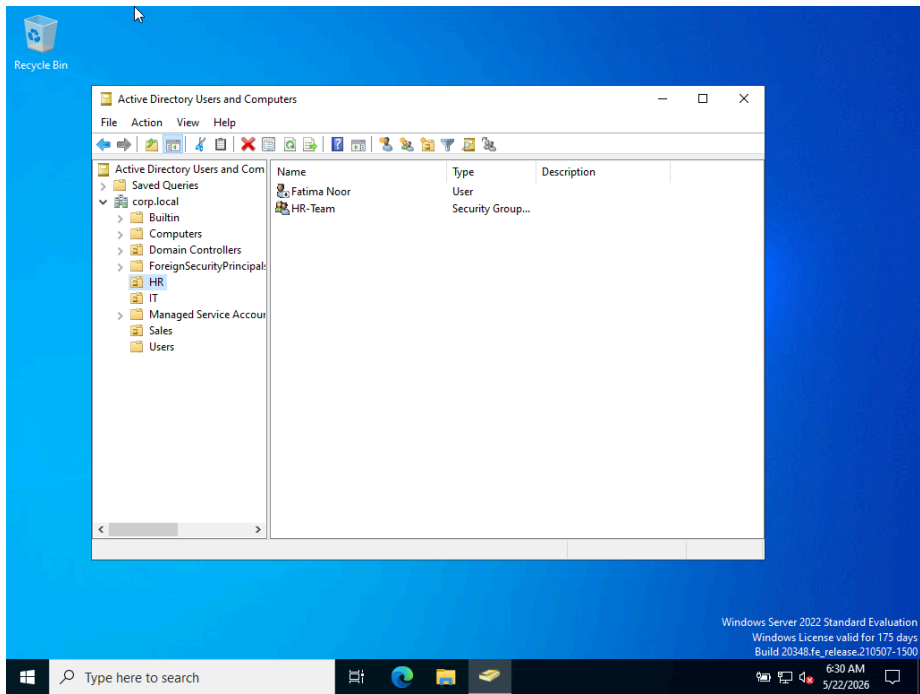

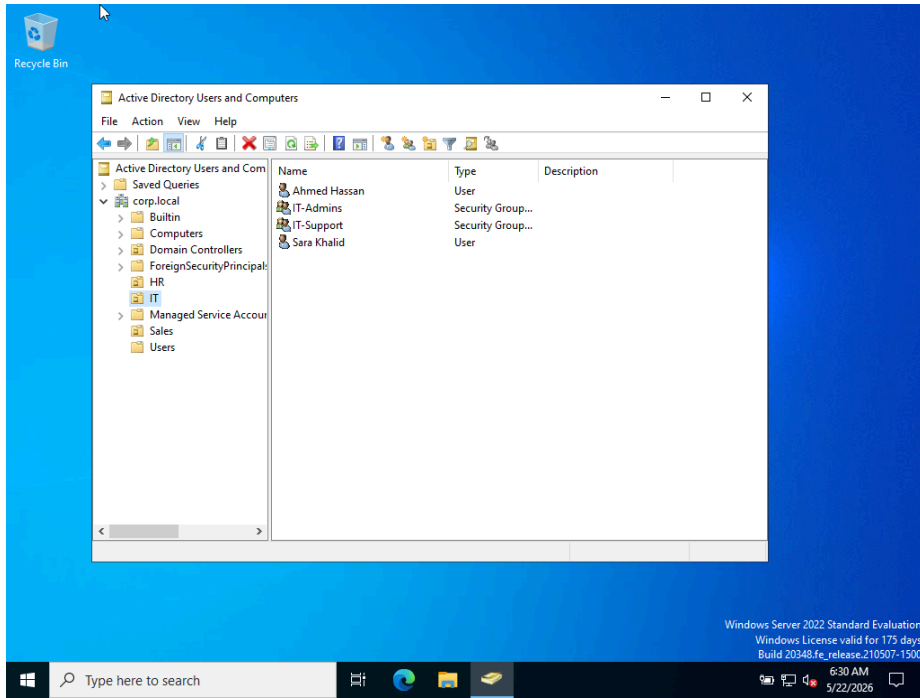

Security Groups Created

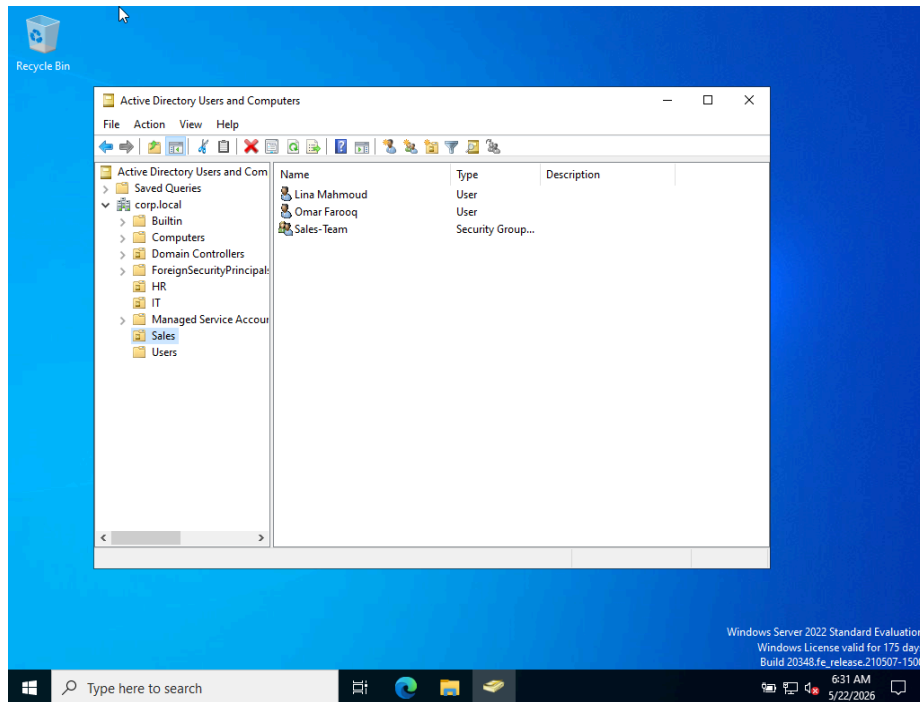

- IT-Admins
- IT-Support
- Sales-Team
- HR-Team

Notes

Users were assigned to their appropriate security groups.

Screenshots

6. Helpdesk Tasks Practice

Practiced common Active Directory administrative tasks.

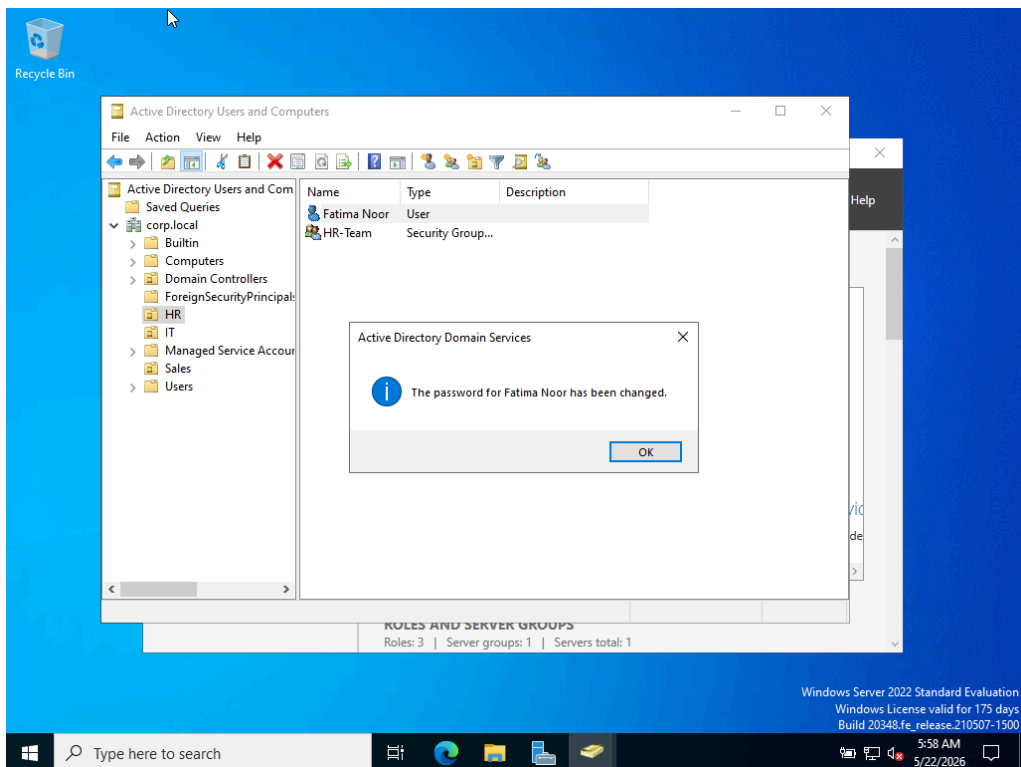

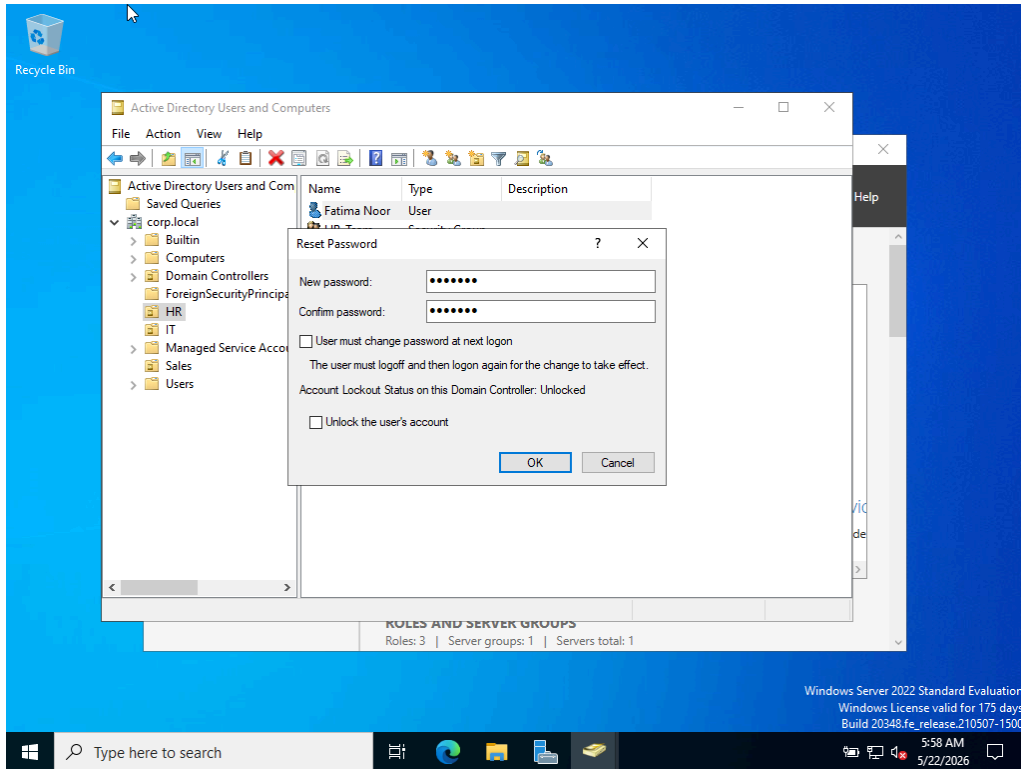

Tasks Performed

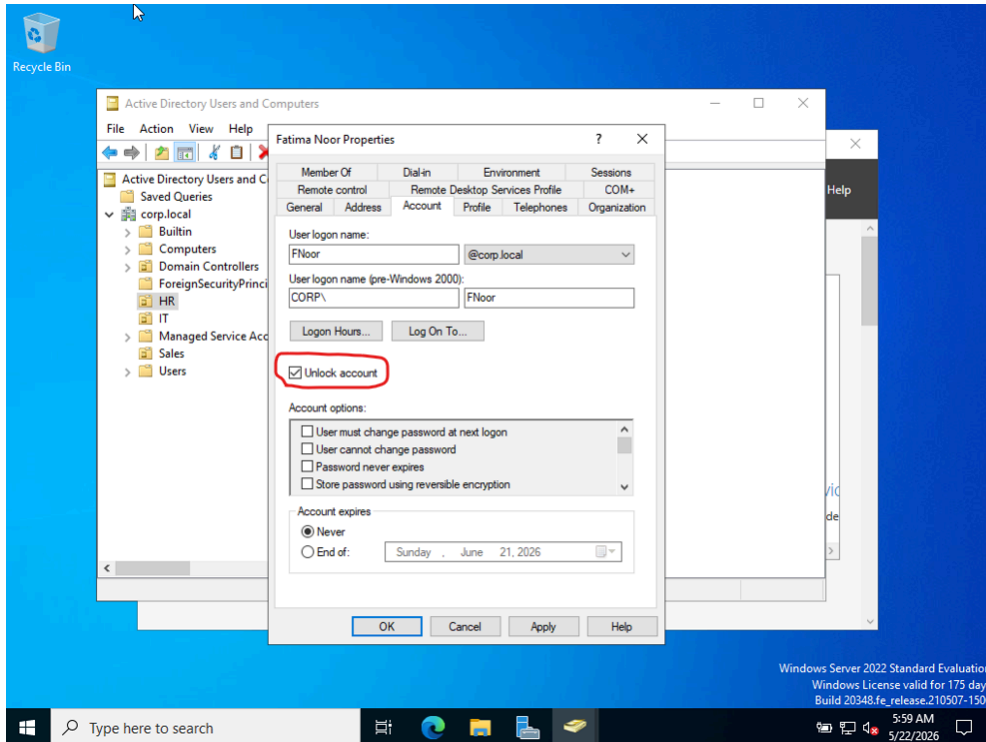

- Reset user passwords
- Unlock user accounts
- Disable user accounts
- Move users between OUs

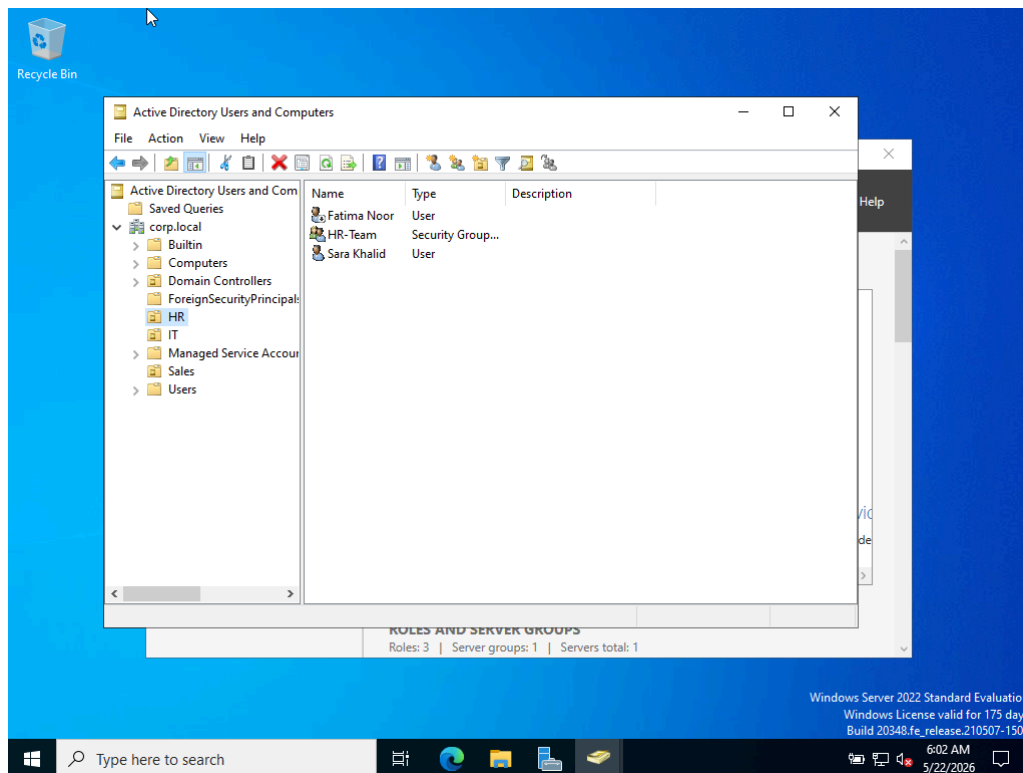

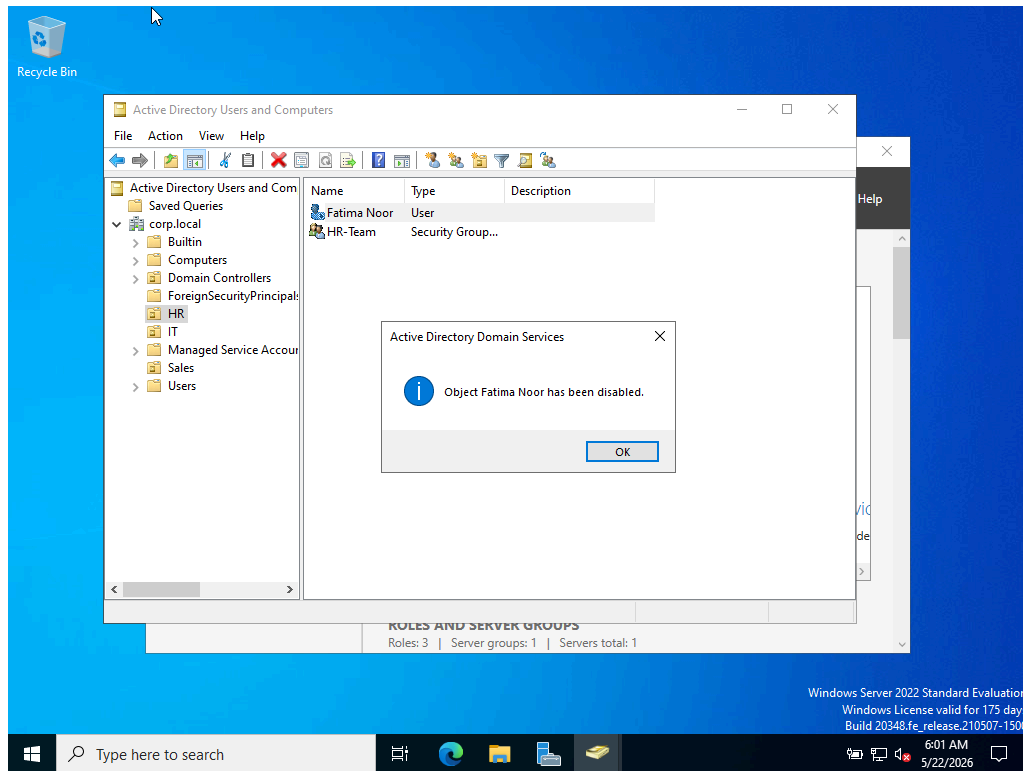

Notes

These tasks were completed using Active Directory Users and Computers.

Screenshots

7. Group Policy Configuration

Configured a basic Group Policy for password security.

Policy Applied

- Minimum Password Length: 8 characters

Steps Performed

- Opened Group Policy Management
- Edited Default Domain Policy
- Navigated to Password Policy settings
- Applied password length requirement

Notes

The policy was successfully applied to the domain.
